Re: Submission of Documentary Evidence by Sea-Land
Service, Inc. in OSHA Docket No. S-025A

Dear Mrs. Kenney:

Here is Sea-Land Service, Inc.'s submission of documentary evidence in OSHA Docket No. S-025A. At the informal public meeting on Tuesday, January 27, 1998, Sea-Land's representatives, Michael Bohlman and Phillip Murray will be providing comments consistent with the Position Statement submitted by Sea-Land on Monday, December 8, 1997. In addition, Sea-Land submits the following documentary evidence in quadruplicate (with one set suitable for reproduction):

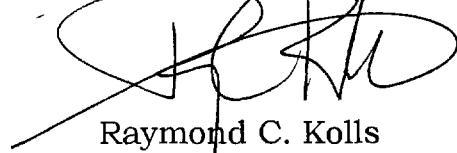

- A videotape entitled "Multi-Pick Operation and Testing." The running time of this videotape is approximately 14 minutes. Sea-Land's understanding is that the time to view this video will not count against the time reserved for the Sea-Land representative's presentations.
- A document entitled "Container Double Lifting (Piggyback) Survey."

- Certifications received from the Taiyo Seiki Iron Works Co., Ltd., All Set Marine and the American Bureau of Shipping.
- Technical Paper N 130 of the International Organization for Standardization's Technical Committee 104.

Should you have any questions, please do not hesitate to contact us.

Very truly yours,

SEA LAND SERVICE, INC.
